

Gender Pay Gap Statement 2021

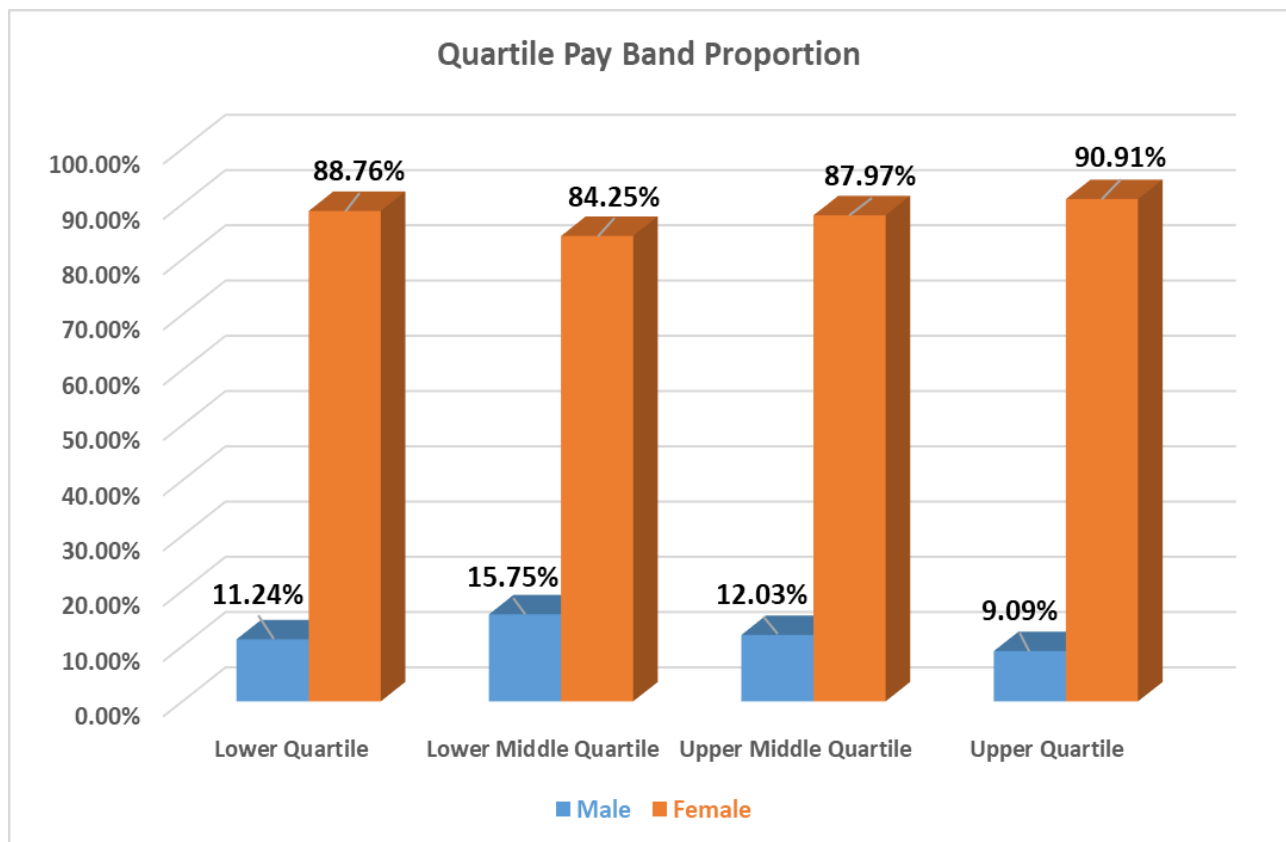

HFH Healthcare provides complex care services in the home for both children and adults.

Within our organization we are committed to equal opportunities for all and operate a benchmarking system for all positions.

Our workforce, as is typical within our sector, is predominantly female however we encourage gender balance in this historically female-orientated plan, which is made up of carers and nurses.

On 5 April 2021, we had 400 full-pay relevant employees (438 in 2020). 88% of employees were female (89% in 2020) and 12% of employees were male (11% in 2020).

Proportion of men and women in each quartile pay band is presented in the graph below:

The average female employee at HFH Healthcare earns 4.39% more than the average male employee.

For HFH Healthcare overall	2021	2020
Mean (average) women's hourly rate	4.39% higher than men	4.35% higher than men
Median women's hourly rate	0 %	0 %

HFH does not pay bonuses hence why its not included in this report.

I declare that the information contained in this report is accurate.
